

# OPTI-FLOW

***Big power savings.  
Better Extraction performance.  
Quieter with longer filter life.***

Micronairs OPTI-FLOW Variable Speed Drives deliver average Energy savings of 50%. They achieve this by continuous monitoring of the air-speed in the system then automatically adjusting the Fan speed to deliver the correct airflow throughout.

Payback averages 18 months

Noise is reduced by an average 35-40%

Filter life is extended as excess air volumes are eliminated

‘Soft start’ avoids power spikes

Fully programmable allowing fine tuning to maximise outcomes

***Add OPTI- FLOW automatic Gates to further increase your savings by eliminating manual gate open and closing.***

***Auto link to each machines start-up / shut-down for maximum benefits.***

***Servo driven to eliminate ‘slam shut’ problems.***
