

# FUME - FIX

## **Solve your Fume and Dust Problems with Micronair's Mobile Arm's**

### **Self-supporting, flexible and strong!**

FUME-FIX flexible arms get into tight spots to remove fume and dust where it's generated.

Very easy to position and reposition as you work. Built in damper gate to control airflow.

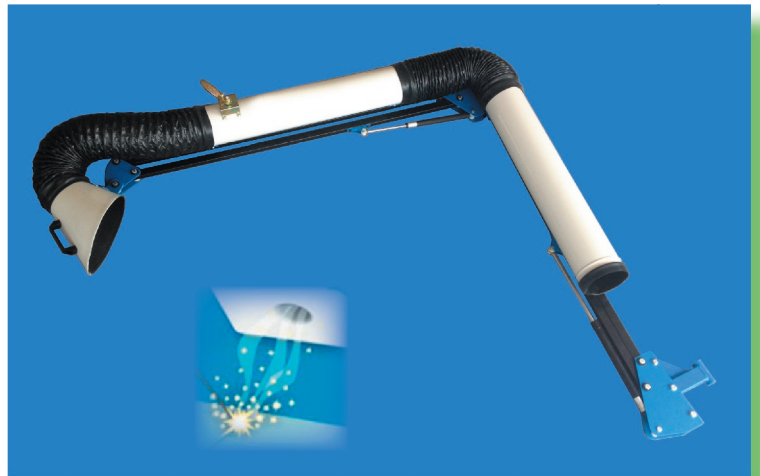

Super strong wall mounting bracket.

External frame - out of the 'dirty air' flow so there's no clogging or corrosion of the positioning frame. Easy access to lubricate the pivot points.

Rugged construction handles the rough and tumble of busy work stations.

Available in 2m, 3m and 4m reach. All with large 150mm diameter tube to really move high air volumes at low noise.

**FUME-FIX arms are very solidly built to the tough 'CE' compliance standards and you're protected by your MICRONAIR 12 month Warranty.**
